

# TUFF HEAVY DUTY ANTI - ABRASIVE SLEEVES

**Tuff Regular Abrasive Sleeve (AS01)**  
 An extra layer of material is sewn at the wear points on either or both sides of the sling body or eye. Multiple layers are also available on request.

**Tuff Sliding Abrasive Sleeve (AS02)**  
 Protects both sides of the slings body, and you can easily slide it across the sling. It remains stationary as the sling stretches while the load is lifted.

**Tuff Edge Protection Abrasive Sleeve (AS03)**. Pads are sewn along the edge of the sling body to offer extra protection at a critical wear area.

**Tuff Stitched Abrasive Sleeve (AS04)**  
 Similar to the Sliding Sleeve, but is stitched onto the sling body to protect the edge as well as the lifting surface.

## Tuff Corner Protection Guard

## Tuff Shackle Guard

# TUFF POLYURETHANE ANTI-CUTTING SLEEVE

Item Code	Width (mm)	Outer Dia	Inner Dia	Approx Thickness	Length (mtr)
