

SAFETY NETS

Safety, is our first Priority

Gives Protection to your Property & Personnel life

Features	Advantages	Benefits
Machine made & heat-treated Safety nets	Better Knot & stability	Upgraded Safety
Uniform mesh Size	Provide uniform nets	Increases safety at job site
UV stabilized nets	Upgrade the life of the net	Saves cost on multiple purchases
Firm Fabrication to proper secured splicing on boarder of Nets and Splicing at corners	Prevent the Splitting of boarder rope from the body of the net	Increase strength and safety
Tracer yarn and Spcl. Colour Rope for genuine traceability	Easier identification of genuine " KOHINOOR" Safety nets	To Avoid Duplicity and ensures about best quality of safety nets

Our Product Range in Safety Nets & Nets Product

1. Braided Safety nets with containment net.
2. PP Twisted Safety nets with containment net.
3. Polo nets for high rise construction site.
4. protection net, fence & barrier nets.
5. Sports nets – Cricket net, Tennis net, Badminton net, and various types of sport nets as per requirement
6. Bird/Pigeon Nets

Safety Net - Braided

Single Layer Braided Safety Net

Production Description	Net Dimension	Color
2.5mm Braided Safety Net in 25mm Sq	10mtr X 5mtr 10mtr X 6mtr	L. Green L. Green
2.5mm Braided Safety Net in 30mm Sq	10mtr X 5mtr 10mtr X 6mtr	L. Green L. Green

Double Layer Braided Safety Net

Production Description	Net Dimension	Color
2.5mm Braided safety net in 25mm Sq with Fishnet or with Green Monofilament containment (debris collection) net	10mtr X 5mtr 10mtr X 6mtr	L. Green L. Green
2.5mm Braided Safety Net in 0mm Sq or with Monofilament containment (debris collection) net	10mtr X 5mtr 10mtr X 6mtr	L. Green L. Green

Triple Layer Braided safety net

Production Description	Net Dimension	Color
2.5mm Braided safety net in 25mm Sq with Fishnet containment and with Monofilament containment (debris collection) net	10mtr X 5mtrs 10mtr X 6mtrs	L. Green L. Green
2.5mm Braided safety net in 30mm Sq with Fishnet containment and with Monofilament containment (debris collection) net	10mtr X 5mtrs 10mtr X 6mtrs	L. Green L. Green

5mm Braided Safety Net

Product Description	Net Dimension	Color
5mm Braided Safety Net, 100mm SQ with twisted containment net	10mtr X 5mtrs 10mtr X 6mtrs	L. Green L. Green

Safety Net - Braided

Triple Layer Twisted PP Safety Net

Product Description	Net Dimension	Color
4mm PP Twisted safety net in 100mm Sq 2.5mm Braided netting in 30mm sq Monofilament containment net Or fishnet containment (debris Collection) net.	10mtr X 5mtr 10mtr X 6mtr	Yellow Yellow

Double Layer Twisted PP Safety net

Production Description	Net Dimension	Color
4mm PP Twisted safety net in 100mm Sq with Fishnet (debris collection) containment net	10mtr X 5mtr 10mtr X 6mtr	Yellow Yellow
4mm PP Twisted safety net in 100mm Sq with Monofilament (debris collection) containment net	10mtr X 5mtr 10mtr X 6mtr	Yellow Yellow

UV STABILIZED
NETS

MACHINE
MADE MESH

HANDMADE
NET

Features

- Available in twisted and braided netting.
- Square Mesh - The actual machine-made mesh.
- Heat treatment improves mesh size uniformity and dimension stability.
- High-strength border rope and tie codes are included for quick and dependable installation.
- Stability when exposed to UV rays.
- Long lifespan in compared to other handcrafted nets.

Key Points

- Improved knot and stability.
- Give out uniform nets.
- Increase the net's lifespan.
- Stop the border rope from separating from the net's main body.
- Enhanced Safety.
- Size of uniform mesh.
- Machine & heat-treated Safety nets
